

## JOHN RATHBONE

---

**Senior Consultant – North America,  
Energy Systems Division, North America  
Ramboll**

John Rathbone has been involved at almost every stage of the engineering consulting business from system planning to detailed design, construction and construction management.

Mr. Rathbone has experience in a variety of energy systems engineering, specifically with European style district energy systems. His role in Canada is to bring Ramboll's experience of low carbon, commercially successful district energy systems to the Canadian market.
